Everybody's doing

AUDRINA PATRIDGE

The *Hills* babe's bod has changed big time in the past few years! "Lauren [Conrad] and I have never had plastic surgery," Audrina, 25, posted on her MySpace page in 2008. But that was then. "It clearly looks like she had breast augmentation, going from a small B cup to a full C or small D," says plastic surgeon Dr. Matthew Schulman. Still, Audrina continues to scoff at plastic surgery rumors, including "that I have chin implants, cheek implants, a nose job...God, everything." At least when it comes to her boobs, "They're a good fit for her body," says Dr. Schulman. And now that she's got 'em, Audrina is clearly happy to flaunt 'em!

THEN

NICOLE

CHRISTINA AGUILERA

A pal of the singer had only the, er, breast intentions when she pooh-poohed talk of Christina having plastic surgery, saying, "She never had a boob job. That's just a rumor." Yet it's hard to deny that the formerly flat-chested mom of one, 29, is now busting out all over. "These breast implants are very large, too large for her body, resulting in the overdone appearance," says Dr. Schulman. Less can be more, Christina!

THEN

"What boob job? This is not true!"
— Christina

SARAH JESSICA PARKER

MADONNA

Although the usually outspoken star has only said she “wouldn’t rule out” having plastic surgery, it seems pretty evident she’s already taken the plunge! “Madonna has clearly had facial rejuvenation. She now has fuller cheeks and a more defined jawline,” says Dr. Schulman. “Her extremely prominent cheekbones are also likely the result of injectable fillers and have a very unnatural appearance.” Guess the Material Mom, 51, didn’t quite get her money’s worth!

JENNIFER ANISTON

The *Friends* star owns up to correcting a deviated septum — but she says that her suddenly pumped-up cleavage is due to simply packing on a few pounds.

“The rest of my body is all mine,” Jennifer, 41, has said, and added: “It’s like a couple of cheese plates too many. You gain weight, and that’s where it goes on me.” But is that really all there is to it? “Jen may have undergone a subtle breast augmentation, taking her from a small B to a small C cup,” says Dr. Youn. “Her breasts look a bit fuller but still classy and natural.” Just like Jen herself!
